Divyansh Gupta

Mobile App Developer | Flutter · Android · React Native | AI-Augmented Development

Uttarakhand, India • +91 94129 89479 • gdeva368@gmail.com • linkedin.com/in/DivyanshGupta • github.com/Cyber-Nut

SUMMARY

Mobile app developer with **1+ year of full-time experience** and a year of prior internships, shipping production Android and iOS apps end to end: authentication, in-app purchases, payments, real-time video and offline-first sync. Primary stack is **Flutter**, with hands-on work in **native Android (Java)** and **React Native**, so I pick the right tool for the product rather than one framework. I work with an **AI-augmented workflow** (Claude Code) for scaffolding, refactoring, test generation and debugging, while owning the architecture and reviewing every change.

PROFESSIONAL EXPERIENCE

Junior Flutter Developer | TechIndika (Full-time) Aug 2025 – Present

- Shipped and maintain multiple production mobile apps on Google Play and the App Store, owning releases end to end with Google, Apple and MSG91 OTP sign-in and full Play Store policy compliance.
- Built offline-first ERP apps using **Drift** (SQLite) with **Riverpod** and **GetX**, providing local persistence and seamless sync between offline and online states.
- Implemented **in-app purchases** (subscriptions, consumables, non-consumables) and integrated the **Cashfree** payment gateway.
- Integrated **Agora SDK** for live streaming and real-time audio/video calling, and **Firebase** for push notifications.
- Built real-time chat and socket-based features, applying async and concurrency patterns from Java/Android to Dart streams.
- Adopted an **AI-assisted development workflow** (Claude Code in VS Code) for feature scaffolding, refactors and bug triage, cutting turnaround on features and fixes while keeping full ownership of design and code review.

INTERNSHIPS

Flutter Developer Intern | RevoltronX Dec 2024 – Aug 2025

- Developed and launched a full-featured mobile app in Flutter backed by **Node.js** and **MongoDB**, from UI through API integration.
- Implemented secure authentication and **Riverpod** state management for a scalable app architecture.
- Built **BLE / Bluetooth** communication connecting the app to the Arvyax IoT product.
- Delivered responsive, pixel-perfect UI wired to dynamic backend APIs.

Android Developer Intern | inSri Tech Solutions Sep 2024 – Nov 2024

- Built cross-platform mobile UI in **React Native** and JavaScript using modular, reusable components.
- Worked on native Android features with **Java** and the **Android SDK**; integrated RESTful APIs for real-time data updates.

TECHNICAL SKILLS

Mobile: Flutter & Dart (primary), Android SDK (Java), React Native, iOS & Android release
Architecture: Clean Architecture, MVVM, Repository pattern
State & Data: Riverpod, GetX, Drift (SQLite), offline-first sync, REST APIs, WebSockets
Integrations: Firebase (FCM, Auth), Agora RTC, Cashfree, In-App Purchases, MSG91, Google/Apple Sign-In, BLE
Delivery: Git, GitHub, CodeMagic CI/CD, Google Play Console, App Store Connect
AI-Assisted Dev: Claude Code, prompt-driven code generation and review, AI-assisted refactoring, testing and debugging
Languages: Dart, Java, JavaScript, TypeScript, SQL, C

EDUCATION

Hemwati Nandan Bahuguna Garhwal University 2022 – 2026
B.Tech in Information Technology

LEADERSHIP

Co-Founder | Luminaries Sep 2023 – Oct 2026

- Co-founded and ran the institute, managing marketing and daily operations; served as lead mathematics instructor across multiple batches.

Founder | GuruGeek Sep 2023 – Sep 2024

- Launched a home-tuition platform connecting 100+ tutors with 200+ parents.
